

PLP SSDs

High reliability for mission critical systems

Transcend's medical-grade PLP SSDs feature on-board tantalum capacitors that continue to provide power even during sudden power outages. Crucial data can be saved correctly, preventing costly downtime and data loss.

Optimized Performance

Built-in DRAM cache and LDPC ECC algorithms prevent data corruption.

Customization Services

Various customizations can be implemented (Wide-temp., RAID engine, AES) to satisfy specific needs.

Product Longevity

Fixed BOM & product lifecycle management (PLM) to maintain long-term product supply.

Featured Products

PCIe M.2 2280
96-Layer 3D NAND

MTE662P

SATA III M.2 2280
96-Layer 3D NAND

MTE952P

SATA III 2.5"
112-Layer 3D NAND

SSD470P

SATA III 2.5"
96-Layer 3D NAND

SSD452P

SATA III mSATA
96-Layer 3D NAND

MSA452P
